### PROFILE SUMMARY

Cybersecurity Engineer at Swisscom, contributing to secure, centralized, and automated secrets management through HashiCorp Vault in cloud-native and CI/CD environments.

Experienced in developing data-driven security dashboards with Python and Streamlit to enhance visibility, security maturity tracking, and vulnerability management across teams.

Currently pursuing a Master's in Artificial Intelligence and Data Engineering, exploring how AI and automation can strengthen cybersecurity operations and decision-making.

Holder of a Master's in Cybersecurity and multiple industry certifications (CDP, CCNSE, CCSE, CASP, CTMP). Currently preparing for the CISSP certification. Passionate about connecting AI and Cybersecurity to build scalable, intelligent, and resilient systems.

### WORK EXPERIENCE

#### Swisscom

May 2025 - Present

##### Cybersecurity Engineer

- Develop Streamlit dashboards for Security Transparency to visualize metrics and improve visibility across departments.
- Support HashiCorp Vault integration for secure, automated secrets management in cloud-native and CI/CD environments.

**Skills:** Security Transparency · Python · Streamlit · Data Visualization · HashiCorp Vault · Secrets Management

#### Swisscom

Oct 2022 - May 2025

##### DevSecOps & Scrum Master

- Integrated SAST, DAST, and SCA tools into CI/CD pipelines to improve automation and collaboration across teams.

**Skills:** DevSecOps · GitLab CI/CD · Security Automation · Secure SDLC

#### Aegon

Jul 2021 - Sep 2022

##### Application Security Engineer

- Improved application security through secure code review and AppSec automation using SAST, DAST, and CI/CD tools.

#### Between Technology

Jan 2021 - Jul 2021

##### Cybersecurity Analyst

- Implemented ISO 27001 and ENS controls while performing code analysis, penetration testing, and risk assessments.

#### Giesecke + Devrient Mobile Security

Feb 2019 - Jan 2021

##### Test Manager

- Led QA and test automation for secure mobile systems under agile frameworks using C++.
